

MANUFACTURING ENGINEER (M/F/D)

📍 Airport Leipzig, Airport Oberpfaffenhofen 📄 Permanent ⌚ Full-time # 2021-0224

This is what drives you

You have a clear idea of what you want: To contribute to the vision of safe and energy-efficient flying, in a team of like-minded aviation enthusiasts who are determined to shape the future of aviation.

This is what you can do

The position holder will be supporting the test aircraft production in Oberpfaffenhofen, as well as industrialization for the final assembly line in Leipzig with the following key tasks:

- 1st loop assessment and verification of manufacturability of the design
- Responsibility to generate & release Job Cards and bill of materials (BOM) for assembly, ground & flight test teams that enable state of the art quality and efficiency standards
- Creation of delivery specifications for 1st Tier Suppliers, definition and specification of tools & jigs required for final assembly line
- 1st level technical support to test teams in assembly and flight test in case of trouble shooting and other abnormalities, processing of non-conformities and concession, creation of manufacturing/ rework instructions
- MFT Lead (Quality, Production, Engineering, (MAP), ME) to continuously improve the assembly process, incl. technology & lean manufacturing/ assembly-friendly concepts, Design-to-Cost initiatives
- Technical focal point for 1st Tier supplier to verify manufacturing plan & rate readiness – acts as Field Representative in case of risk of assembly line stoppage
- Focal point in Full-Change-Process to assess & provide the industrial repercussions related to Design Changes

You'll bring this with you

- Bachelor Degree in Manufacturing (Systems) Engineering or equivalent
- 2+ years experience in Aerospace Manufacturing Engineering

Please note that the place of work will be Oberpfaffenhofen until launch of the production in Leipzig. From start of the production in Leipzig, the work place will be in Leipzig.

This is who we are

We are an aircraft manufacturer with a strong heritage looking to continue our story. Headquartered to the west of Munich, we are recognized by international aviation authorities as a development, manufacturing and maintenance company. That is why today we are focusing our full energy on developing and manufacturing a new generation of technically advanced aircraft in Germany. Share with us the vision and ambition to drive the transformation of flying and to make our contribution to safe and energy-efficient air transport.

We are looking forward to your application!
