### YOUR APPLICATION

Are you interested?

We would like to know more about you, your qualifications, your objectives, expectations and plans for your future.

Please send your application in German or English via email to

[recruiting.ground@aerologic.aero](mailto:recruiting.ground@aerologic.aero)

### RESPONSIBILITIES

- Strategic Support: Provide strategic assistance to the Operations Control Center, ensuring safe and efficient flight operations across our intercontinental network.
- Flight Planning: Calculate safe, time, and cost-efficient flight plans to/from some of the busiest and most interesting destinations of the world.
- Crew Briefing & Assistance: Offer comprehensive briefings and inflight support to flight crews, ensuring the safe conduct of flights.
- Operational Oversight: Maintain continuous tracking and monitoring of the fleet, including flight following, monitoring, and flight watch.
- Risk Assessment: Evaluate potential risks related to flight operations, such as weather hazards, technical issues, and strikes.
- ATC & Traffic Flow Management: Manage ATC slots and traffic flow restrictions within our network of operations.
- Daily Coordination: Coordinate day-to-day operations and recovery plans with pilots, ATC units, ground handlers, and fuel providers worldwide.
- Recovery Plans & Rescheduling: Assist the shift manager in managing recovery plans and schedule changes, providing support for operations and crewing.

### OUR OFFER

- An unlimited employment contract with 30 days' holiday
- Childcare benefit for kindergarten children
- Offer of a free job ticket, good transport connections and free parking on site
- A varied and responsible work spectrum in a motivated team
- Reliability, stability and perspectives in a company with flat hierarchies and short decision-making channels
- A local workplace at Leipzig-Halle Airport, a modern working environment
- Opportunities for further training
- Opportunity to work from home
- Discounted flights
- ...and more

By submitting your application, you agree that your data may be stored and used within the scope of the application procedure.

### REQUIREMENTS

- Educational Background: High school graduate, preferably with a focus on aviation.
- Relevant Experience: Experience in airline operations, ideally within an OCC as a flight dispatcher or operations controller.
- System Knowledge: Familiarity with OCC systems (e.g., LIDO, Netline Ops, Netline Crew, CFMU, Sita Mission Watch).
- Regulatory Familiarity: Understanding of EASA AirOps and ICAO/IATA SARPs.
- ICT Proficiency: Competency in MS Office Suite.
- Analytical Thinking: Strong analytical and problem-solving skills.
- Language Skills: Fluency in English and preferably German
- EU citizen or at least EU residence permit
- Shift Flexibility: Willingness to work various shifts, including days, nights, and weekends.

A joint venture of DHL Express and Lufthansa Cargo
